

Francisco Louzada is a Professor of Statistics at the Institute for Mathematical Science and Computing, University of São Paulo (USP), Brazil, Research Productivity Fellow of the Brazilian founding agency CNPq (level 1B), Director for the Center for Risk Analysis (CER), Deputy Director for the Center for Applied Mathematics and Statistics in Industry (CeMEAI), USP, Brazil, Director of Technology Transfer and Executive Director of External Relations of the Center for Research, Innovation and Dissemination of Mathematical Sciences in Industry (CEPID-CeMEAI), and Deputy Director for Graduate Studies in Statistics of the Interinstitutional Program USP-UFSCar. He was an Associate Professor of Statistics at the Federal University of São Carlos (UFSCar) in Brazil, Director for Graduate Studies in Statistics, at the UFSCar, Director for Undergraduate Studies in Statistics, UFSCar, and Editor-in-Chief from the Brazilian Journal of Statistics. He received his Ph.D. degree in Statistics from the University of Oxford, UK, under the direction of Sir David Cox, Anthony Davison and David Hinkley, his M.Sc. degree in Computational Mathematics from USP, Brazil, under the direction of Jorge A. Achcar, and his B.Sc. degree in Statistics from UFSCar, Brazil. Prof. Louzada is single and joint author of more than 180 publications in statistical peer reviewed journals and book chapters. He is the author of 23 books and booklets, including the books “Interdisciplinary Bayesian Statistics” (with Adriano P. Campos, Laura R. Rifo, Júlio M. Stern and Marcelo Lauretto), published by Springer in 2015, “Statistical Inference: an Integrated Approach, Second Edition” (with Helio S. Migon and Dani Gamerman), published by Chapman and Hall in 2014, and “Controle Estatístico de Processos: Uma abordagem prática para cursos de Engenharia e Administração, First Edition”, published by LTC Editora in 2013. He has supervised 09 post-docs, 24 PhDs, 42 masters and 82 undergraduates. His main interests are survival analysis, data mining and statistical inference. He is Editor-in-Chief of the Brazilian Journal of Probability and Statistics (BJPS), Editor-in-Chief of the Springer book series SpringerBriefs in Statistics – BSA (Brazilian Statistical Association), member from the editorial board of Fisher Book Project from the BSA, member of the Editorial Advisory Board of the Journal of Applied Statistics and the Brazilian Biometrical Journal, and Associate Editor of the journals Quality Tech. & Quantitative Management (QTQM), Journal of Statistical and Econometric Methods, and Brazilian Journal of Statistics. He has served as President of the BSA and Secretary of the Brazilian Chapter of the International Society for Bayesian Analysis. Prof. Louzada has conducting consulting, training and technological transferring of statistical methodologies for more than 40 companies and institutions.
